SAVANCE

Savance COVID-19 Solutions Details

Temperature Scanner

Screening Questions
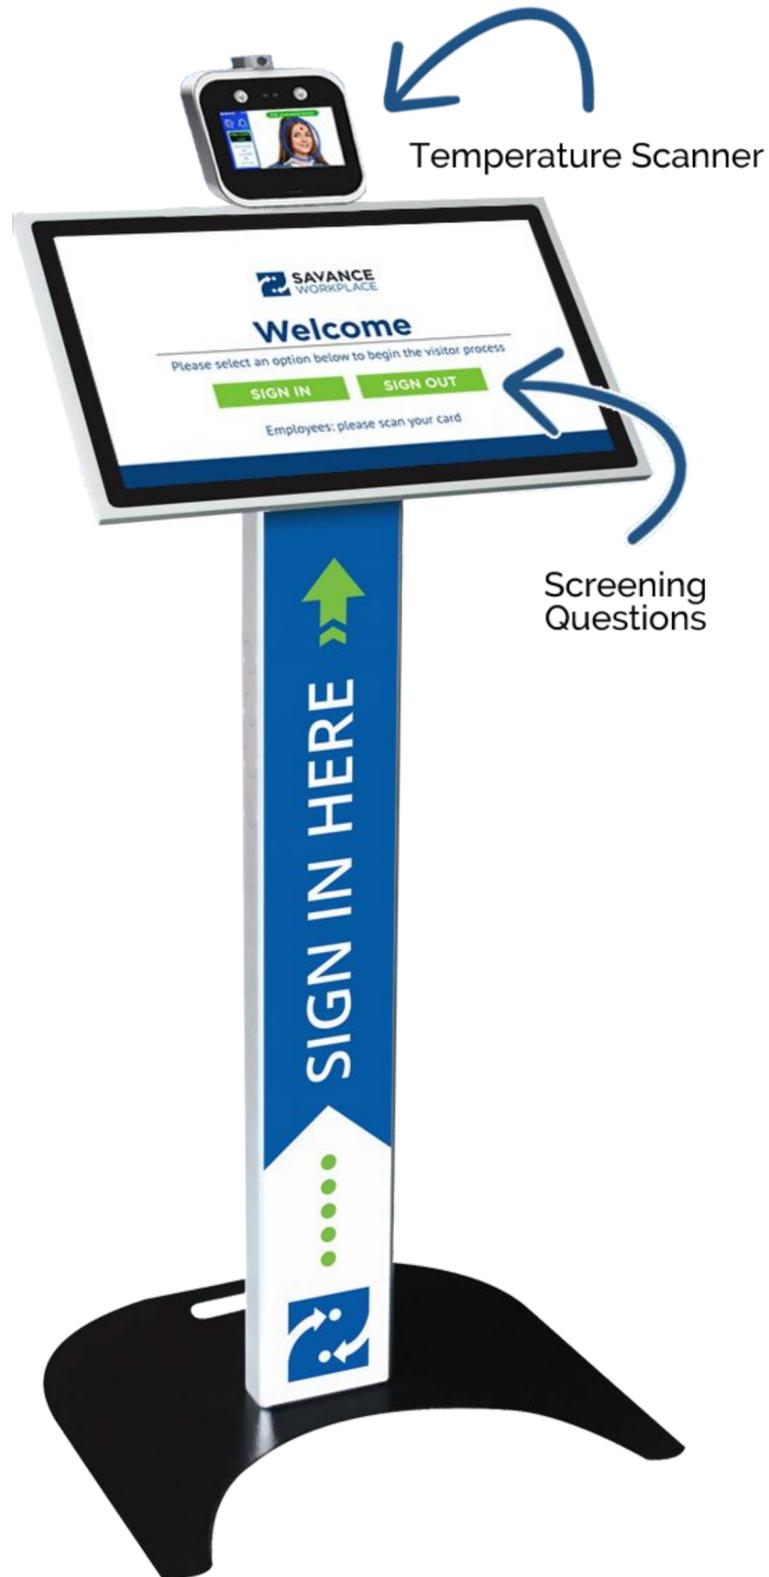

- Ask screening questions like, "Are you experiencing any flu-like symptoms?" to staff, visitors, and contractors

- Accurately (+-0.5° C)check and log temperature of staff, visitors, and contractors (optional with temperature device)

- Alert staff via text and/or e-mail if temperature not in the range or for concerning question responses

- Control access through a gate, turnstile, door, etc.

- Audit information immediately reportable from cloud or on-premise fully customizable reporting

UV Cleaner

- Automatically cleans kiosk screen between uses

- Motion sensor detects activity, then begins cleaning cycle after motion is completed

- Kills all bacteria and viruses including COVID-19

- Uses USB power supplied by Kiosk or wall adapter

- Audit records retrievable

Touchless Check-In

- QR-Code based bring-your-own-device (BYOD) check-in

- Customizable check-in process

- Ask any question in the order that makes sense for your organization

- Change the question path based on responses

- Responsive (screen formats for the user's device)

- Queue and track visitors

- Control door, turnstile, or lift gate (coming soon)

- Print labels (coming soon)

Affordable | Touchless = Germfree
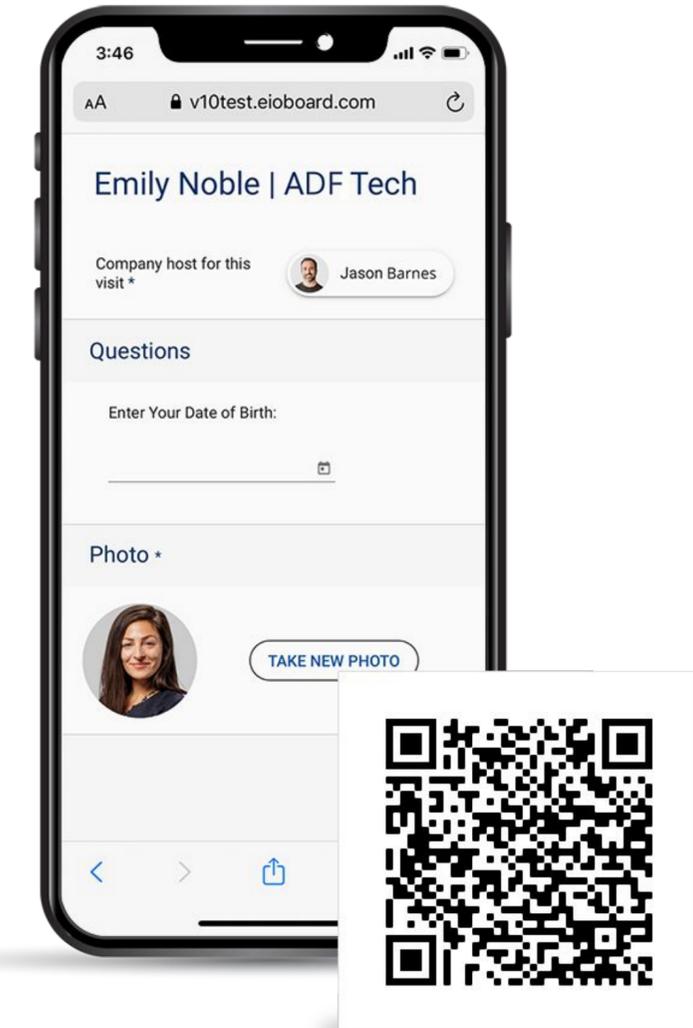

How Does It Work with a Kiosk or Pre-Registration?

When a person arrives, they simply scan a QR code with their device and answer the same questions they'd see on the kiosk. Once they do, they will be added to the visitor log.

How Touchless BYOD Check-in Works

1. Person Scans QR Code with Camera

2. Person Fills In Required & Optional Information
