

Savance Electronic Whiteboard is a large digital signage solution designed to display critical information viewable at a glance. Use for employee status updates, company announcements, and more. By adding the touch screen option, a static status board turns into an interactive whiteboard replacement for easy updates.

ELECTRONIC WHITEBOARD

UNIVERSITY OF ALASKA ANCHORAGE

“ We also use [EIOBoard] just to see who's available. When we need to talk with someone, we'll check the EIOBoard before getting up and walking to their office.

Get rid of that old wall-mounted, outdated magnetic whiteboard, which is only viewable in one physical location, and upgrade to a universal, real-time electronic whiteboard for your entire office or building.

Savance's Electronic Whiteboard gives you lots of options and flexibility for updating your status, and lets you view cell phone numbers, returning date and times, email addresses, and extensions. You can also leave full-text comments, send and receive notes, and much more.

The solution is customizable and scalable to any size business. Post updates via a computer, a touch screen kiosk, an Internet browser, Microsoft Outlook, or a cell phone, and your status will display on one or several wall-mountable electronic whiteboards.

SELECT BENEFITS

- Eliminate old school methods, like magnetic status boards, and simplify your work life.
- Screens available from 10" to 70" for varied applications.
- Plug and play – simply mount and use.
- Show mixed content, including employee statuses, contact info, and company announcements.
- Update from anywhere using a kiosk, an Internet browser, or your smartphone.
