

Product Description

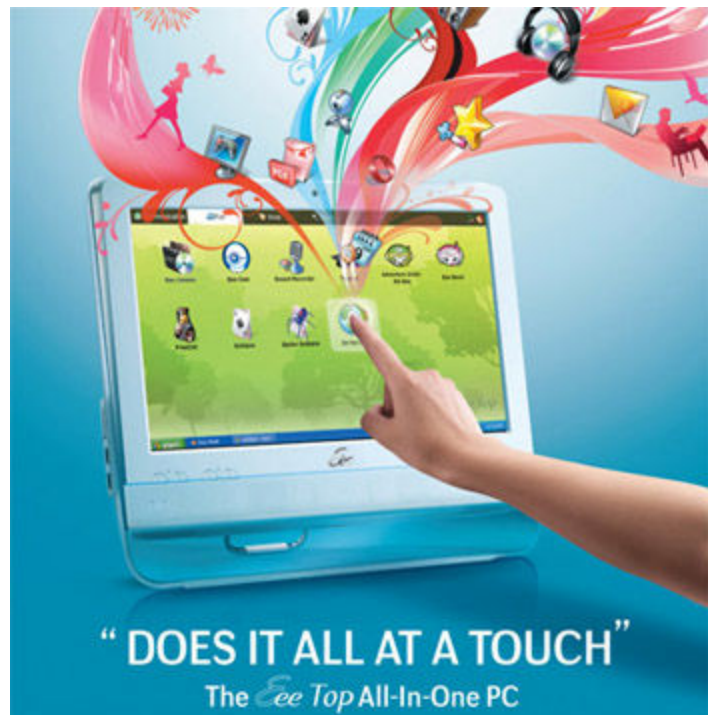

Add a touch of fun to your home with the EeeTop PC ETP1602C, an easy-to-use one-stop desktop that puts the Internet at your fingertips—literally. It features a touch panel that allows you to do everything you can with a regular desktop by simply applying direct pressure on the screen with your fingertips! With its touch-and-select interface and exclusive touch-optimized software, everyone in the family will find the EeeTop PC instantly easy to use! Scribbling memos to each other, surfing the Net, drawing custom emoticons during instant messaging—the possibilities are endless. Saying that the EeeTop PC needs to be set up is an exaggeration. All you have to do is plug the power cord into a socket, and it's ready for use. Moving it about the house is virtually effortless! The EeeTop PC is also the perfect computer for beginners. It features an exclusive Easy Mode within Windows that makes commonly-used applications easily accessible. Everyone will be running programs like experts in no time! The EeeTop PC is clearly user-friendly. But is it also home and earth-friendly? You bet it is. Its svelte design allows it to fit into the most space-starved of settings, and its sleek, modern looks allow it to blend in nicely with contemporary interiors. It operates at a hushed 26 dB* and yet remains extremely cool, thanks to its unique cooling system, collectively known as ASUS Tranquiller Technology. The ET1602C comes with a 1 year parts and labor warranty.

You have the magic touch with ASUS Eee Top

The ASUS Eee Top is a touch screen PC that makes learning, work, and play easier than ever before, for users of all ages. With a simple touch or a swipe, you can surf the Web, video chat with friends and family, enjoy multimedia entertainment, and much more. The Eee Top is stylish and quiet, so it's ideal for use anywhere in the home - keeping you "in touch" with *your* digital world.

- Ideal for interactive communication with Eee Memo and Eee Cam
- Can be used anywhere in your home such as kitchens, living rooms, and bedrooms

Learn More

Slim & Stylish Compact Touch PC with Built-in High-Speed Wireless N Internet Connectivity

The Eee Top designed by ASUS is a slim and stylish touch-screen computer with high-speed Wireless N Internet connectivity so you can easily access the Web. Its small footprint and built-in handle lets you move it easily around the house to wherever you want.

In the kitchen: Access online recipes or watch video clips as you cook. Use Eee Memo to jot down a shopping list or leave a note with a stylus or your finger. Video chat with friends and family over the Internet - it's communication made easy.

In the living room: Ideal for parents and kids to share an online experience

In the bedroom: Eee Cinema puts digital movies, music, and more at your fingertips. Enjoy multimedia on a flawless display with crystal clear audio.

Easy-to-Use Touch Functionality

Eee Top is designed to be finger friendly and can be used without attaching the included keyboard and mouse.

With ASUS exclusive touch-optimized software in the Easy Mode, you can easily communicate, access the Internet, entertainment, and other useful tools that are included. Easy Mode is so intuitive that no manual is required for first-time users.

Also included are Opera Touch and SoftStylus for you to surf and type easily with your finger or the included stylus.

Perfect for Multimedia Enjoyment

Integrated and interactive media center software called Eee Cinema provides easy media library management and playback for various formats of multimedia.

Eee Top also features SRS premium sound. When used with embedded stereo Hi-Fi speakers or surround sound headphones, you can take your multimedia experience to the next level.

Ideal for Interactive Communication

Exclusive touch-optimized applications such as Eee Memo and Eee Cam combined with 1.3M Pixels webcam and background noise-cancelling microphones allow for easy and clear communication with family and friends. Built-in wireless B/G/N networking allows you to access Internet, your network, and Skype wirelessly.

Eee Memo: Makes it easy for family members to exchange personal messages, by using your finger to leave memos on the screen. Leave a grocery list or a reminder to do laundry, Eee Memo makes it easy to stay in touch with your family.

Eee Cam: Fun and easy-to-use software that allows you to add a personal touch to your webcam pictures or videos for interactive communication. Add in special effects to your personalized e-card or Skype video conversation to bring your loved ones closer to you.

Easy to be Green

Eee Top uses only 25W of power in performance mode or 18W in power-saving mode - only 15% of the power consumed compared to a traditional PC.

Get a 10% power boost or up to 40% power savings as you needed with Eee Top's ASUS-exclusive Super Hybrid Engine.

Eee Top also runs near silent at only 26db, making it ideal to be used in bedrooms or study rooms where silence is sometimes required.

It's Better with Windows

Eee Top comes pre-loaded with Microsoft Windows XP Home.

Here are some reasons why Eee Top's are better with Windows:

Trusted: Windows Delivers a dependable experience that Microsoft and a worldwide community of partners stand behind.

Familiar: Windows is easy to use and be familiar with so you can be up and running right away.

Compatible: You can be confident that your devices and applications will work with Windows – more than any other platform.

Warranty

Flawless Display Guarantee and 1 Year Warranty from ASUS

All Eee Tops come with ASUS' Zero Bright Dot Guarantee and 1 year of Eee Top warranty. If the purchaser discovers one defective bright dot within 30 days of purchase, ASUS will replace the panel without cost to the purchaser.

What's in the Box

The Eee PC packaging comes with an ASUS Eee Top, AC adapter, wired mouse, wired keyboard, stylus (stored in keyboard), manual kit, quick start guide, LCD cleaning cloth, warranty information card, XP recovery DVD, XP support DVD, and XP software DVD (for recovery purpose). It's backed by a 1-year warranty on parts and labor.
