Surface Mount
UVC-SM

UV-CLEAN

IMPROVE YOUR INFECTION CONTROL REGIMEN WITHOUT LOSING FOCUS ON PATIENT CARE.

UV-CLEAN by Proximity is your ultimate guard against the spread of infectious pathogens, eliminating 99.9%* of pathogens on high touch surfaces, including your keyboard. Our automated chemical-free disinfecting technology is your second line of defense against the spread of infectious microorganisms.

The UV-CLEAN Surface Mount (UVC-SM) is designed to be used as a free-standing unit or you can easily remove the stand and attach the device to the top of any monitor bezel. Automated cleaning cycles with low doses of UV-C light is harmful for pathogens, yet safe for you. Although hand washing policies should be your first layer of defense, UVC-SM will provide an additional level of disinfection to all high-touch surfaces.

How Does It Work?

- Germicidal UV-C light is dispensed at low levels
- Microorganisms absorb the UV-C wavelength
- DNA of infection-causing pathogens are broken
- Pathogens are disabled, stopping them from reproducing and spreading

How do I Know if It is Cleaning Consistently?

Simply download the cycle reports from each individual device to confirm cleaning. Every unit includes a USB cable that allows you to connect the UVC-SM device to a PC. Easily access the built-in audit trail that resides locally on each device, eliminating any network security issues.

UV-CLEAN IS JUST WHAT THE DOCTOR ORDERED.

Proactive, Next-Generation High Touch Surface Disinfectant

With UV-CLEAN, you can set up a strong line of defense against the spread of infectious microorganisms on high-touch surfaces or objects. Gain the upper hand in the battle against germs.

(i) PRODUCT DETAILS

- Automated and customizable cleaning cycle
- Motion activated for safe deployment of UV-C light
- 24″ active cleaning area range
- Internal memory and built-in audit trail
- Flexible workspace configurations
- Sleek and stylish design 6″ length x 1″ diameter
- Affordable, scalable investment
- Independent low energy LED task light
- Two-year warranty

(⚙) MATERIAL OVERVIEW

- 100% recyclable UV stable plastic
- UV-C bulb
- 12″ micro USB to USB wire included
- 5.5 mm power port connection to USB or supplied power adapter
  - North America: UVC-SM-NA
  - International: UVC-SM-UP

(💡) KEY FEATURES

- Sits conveniently over your keyboard surface and automatically begins cleaning cycles
- Two interchangeable brackets for your choice to mount over keyboard or above monitor
- Optimizes day-to-day workflow with an automatic means of self-disinfection
- Low cost of ownership to implement device that won't impact efficiency
