

Unlock the Full Power of Savance Workplace

Want to get the most value out of your Health Screening kiosk post-COVID? Savance provides many options for extending kiosk operation.

VISITOR MANAGEMENT (Starting at \$1000/kiosk per year)

With completely customizable visitor and contractor question profiles, Savance Visitor Management lets you use your kiosk as a virtual receptionist. Among other things, you can also:

- Send pre-registration barcodes
- Allow for visitor pre-check-in
- Print visitor labels
- Pre-register visitors from Outlook appointments
- Conduct background checks

STAFF CHECK-IN

- Let staff check in and out via your kiosk to update Savance's real-time electronic in/out board, mobile apps, and large screen status displays. Always know who is available and who is not.
- Use your kiosk as a time-clock station with Savance's Timesheets module, free with every Electronic In/Out Board subscription. Integrates with ADP, Quickbooks, Paychex, and more.

EMERGENCY MUSTERING

Savance Emergency Mustering integrates directly with kiosk check-ins and check-outs to monitor who is onsite in case of an emergency. Account for staff, visitors, and contractors via a mobile evacuation tablet — and meet OSHA requirements.

Get the most out of your investment — now and going forward.
